Riley Iverson - **Software Developer**

Lake Stevens, WA 98258 || (360) 941-8651 || rmiverson99@gmail.com
LinkedIn || Github || Portfolio

Software Developer with a strong background in Design. Passionate about growth and new technologies, leveraging my experience and skills to efficiently build innovative technology products while enabling learning and collaboration.

Skills - Frontend Development, Backend Development, Web Design, Animation, Graphic Design
Languages - JavaScript, Ruby, PostgreSQL, HTML5, SASS/SCSS
Tools - React.js, Redux, Ruby on Rails, Photoshop, Illustrator, Figma

Experience

Software Developer - *GoodBread Software*   Lake Stevens || 03/2020 - Present
Developing a full-stack recipe organization web app called GoodBread. The main functions of the app allows users to create recipes and organize them using folders and tags.

Frontend | Frontend Github
- Built with React.js frontend utilizing Redux for state management.
- Utilizes Axios and React Query to manage API requests and data loading.
- Styled using SASS with CSS Flex and Grid for responsive page design.

Backend | Backend Github
- Built with a Ruby on Rails REST API with a PostgreSQL database.
- Uses model serialization and has pagination for responses.
- Uses JWT for API authentication and Bcrypt for data encryption.

Graphic Designer - *Freelance*   Lake Stevens, WA || 02/2023 - Present
- Designing and processing SVG graphics for a family run Etsy storefront.
- Uses Photoshop, Inkscape, Illustrator, Procreate, and Figma design software.
- Specializing in designing websites, logos, illustrations, and graphics.

Data Entry & Photo Editor - *O'Connor Photography Studio*   Stanwood, WA || 08/2019 - 06/2020
Photo editing and data entry for a family run photo business that specializes in local school photography.
- Retouched hundreds of school portraits using Photoshop which were used in yearbooks, prints, and ID cards.
- Green screened portraits using Photolynx and Photoshop for customers, delivering quality results.
- Entered customer order information into a database ensuring accurate order fulfillment and customer satisfaction.

Junior Designer - *Domain7*   Vancouver BC (Remote) || 03/2018 - 10/2018
Developed an animation project, part of a youth behavioral health program for the Child Development Institute of Canada.
- Animated 6 characters using Moho animation software resulting in smooth and quality animation.
- Video edited 9 animations using Adobe Premiere which created seamless storytelling.
- Assisted in rigging 6 unique characters in Moho animation software that provided smooth 2D animation.

Instructional Tutor - *Skagit Valley College*   Mount Vernon, WA || 01/2017 - 03/2017
Tutored special needs students in a Web Programming course.
- Taught students how to use Adobe Dreamweaver which allowed them to progress in the course.
- Assisted both students in developing a personal website as their final project that led them to pass the course.
- Gave feedback on assignments and projects that they've completed and were working on that encouraged them to learn the course content.

Volunteer

Photographer - *North Sound Behavioral Health Organization*   Mount Vernon, WA || 05/2016 - 05/2019
Volunteered for the North Sound Tribal Behavioral Health Conference as the event's official photographer.
- I photographed workshops, keynotes, and their speakers each day of the conference which was used in future conference media.
- I assisted with the setup and logistics for the conference which helped organizers keep the conference on schedule.
