Riley Iverson - **Software Developer**

Lake Stevens, WA 98258 || (360) 941-8651 || rmiverson99@gmail.com

LinkedIn || Github || Portfolio

I'm a Software Developer and Designer, I possess a diverse set of skills and experience. I hold an Associates degree in Web Design and have completed a rigorous coding bootcamp called Flatiron School where I specialized in Software Engineering. I am particularly proficient in developing applications using cutting-edge technologies such as JavaScript, React.js, Ruby, and Ruby on Rails.

Skills - Frontend Development, Backend Development, Web Design, Animation, Graphic Design
Languages - JavaScript, Ruby, PostgreSQL, HTML5, SASS/SCSS
Tools - React.js, Redux, Ruby on Rails, Photoshop, Illustrator, Figma

Experience

Billing - *Valley Shades, INC.*   Portland, OR (Remote) || 03/2023 - Present
- Prepared invoices for clients, complying with provided billing standards and documents.
- Maintained accurate financial records, including client accounts, invoices, and payments.
- Communicated with clients regarding invoices, retention, and answering questions related to billing.

Illustrator - *Mikan Design Studio*   Lake Stevens, WA (Remote) || 02/2023 - Present
- Created graphic designs and illustrations for a self ran print on demand storefront.
- Used professional design tools such as Photoshop, Procreate, and Clip Studio Paint.
- Developed a personal brand to represent products for a better public image.

Software Developer - *Self-Employed*   Lake Stevens, WA (Remote) || 03/2020 - 05/2023
Developed a full-stack recipe organization web app called GoodBread. The main functions of the app allows users to create recipes and organize them using folders and tags.

Frontend || Frontend Github
- Built front end with React.js utilizing Redux for state management.
- Utilized React Axios and React Query to manage API requests and data loading.
- Styled using SASS with CSS Flex and Grid for responsive page design.

Backend || Backend Github
- Developed a Ruby on Rails REST API using a PostgreSQL database.
- Used model serialization and supports pagination for responses.
- Used JWT for API authentication and Bcrypt for data encryption.

Graphic Designer - *Freelance*   Lake Stevens, WA (Remote) || 02/2023 - 03/2023
- Designed and processed SVG graphics for a family run Etsy storefront.
- Used Photoshop and Inkscape design software to aid in work.
- Delivered high quality graphics in an efficient manner that brought a high level of client satisfaction.

Data Entry & Photo Editor - *O'Connor Photography Studio*   Stanwood, WA || 08/2019 - 06/2020
Photo editing and data entry for a family run photo business that specializes in local school photography.
- Retouched hundreds of school portraits using Photoshop which were used in yearbooks, prints, and ID cards.
- Green screened portraits using Photolynx and Photoshop for customers, delivering quality results.
- Entered customer order information into a database ensuring accurate order fulfillment and customer satisfaction.

Junior Designer - *Domain7*   Vancouver, BC Canada (Remote) || 03/2018 - 10/2018
Developed an animation project, part of a youth behavioral health program for the Child Development Institute of Canada.
- Animated 6 characters using Moho animation software resulting in smooth and quality animation.
- Video edited 9 animations using Adobe Premiere which created seamless storytelling.
- Assisted in rigging 6 unique characters in Moho animation software that provided smooth 2D animation.

Volunteer

Photographer - *North Sound Behavioral Health Organization*   Mount Vernon, WA || 05/2016 - 05/2019
Volunteered for the North Sound Tribal Behavioral Health Conference as the event's official photographer.
- I photographed workshops, keynotes, and their speakers each day of the conference which was used in future conference media.
- I assisted with the setup and logistics for the conference which helped organizers keep the conference on schedule.

Education

Flatiron School   Seattle, WA
- *Certificate in Full-Stack Software Engineering*

Skagit Valley College   Mount Vernon, WA
- *Associates in Technical Arts for Multimedia & Interactive Technology: Web Design*
- *Certificate in Adobe Applications*
- *Certificate in Graphic Arts*
